Natural Heritage Resources of Virginia: Rare Plants.  
Natural Heritage Technical Report 16-09. Virginia Department  
of Conservation and Recreation, Division of Natural Heritage,  
Richmond, Virginia. Unpublished report. February 2016.  
60 pages plus appendices.

## INTRODUCTION

The Virginia Department of Conservation and Recreation's Division of Natural Heritage (DCR-DNH) was established to protect Virginia's Natural Heritage Resources. These Resources are defined in the Virginia Natural Area Preserves Act of 1989 (Section 10.1-209 through 217, *Code of Virginia*), as the habitat of rare, threatened, and endangered plant and animal species; exemplary natural communities, habitats, and ecosystems; and other natural features of the Commonwealth. DCR-DNH is the state's only comprehensive program for conservation of our natural heritage and includes an intensive statewide biological inventory, field surveys, electronic and manual database management, environmental review capabilities, and natural area protection and stewardship. Through such a comprehensive operation, the Division identifies Natural Heritage Resources which are in need of conservation attention while creating an efficient means of evaluating the impacts of economic growth.

To achieve this protection, DCR-DNH maintains lists of the most significant elements of our natural diversity. These lists focus the Division's inventory on the Natural Heritage Resources most likely to be lost without conservation action in the near future. Most importantly, these lists are not only useful for DCR-DNH, but can be used by other agencies, organizations, and individuals to guide protection and development decision-making. In formulating these lists, the Division uses information from previous studies, museum records, the observations and opinions of experts, DCR-DNH staff scientists, and field inventories.

The first list included in this report is the Rare Vascular Plant List. This list contains information on the legal and biological status of Virginia's rarest known native vascular plant taxa, **621** in all. This list includes all plants believed to be sufficiently rare or threatened to merit an inventory of their status and locations.

The second list included in this report is the Vascular Plant Watchlist. This list contains information on the legal and biological status of **229** additional taxa that are decidedly uncommon in Virginia but not scarce enough to merit inclusion on the Rare Vascular Plant List. Plants on this list are monitored to determine general population trends. If a species or variety on this list is found to be rare or threatened, it is placed on the Rare Vascular Plant List.

The third list included in this report is the Review List (Taxa of Uncertain Status). These taxa lack numerical ranks, indicating that they are poorly known from a taxonomic and distributional standpoint. Although some of these taxa may prove to be conservation targets, more field and herbarium data are needed to assess their distinctiveness and degree of rarity in Virginia. There are **75** taxa in this category.

The fourth list included in this report is the Rare Non-Vascular Plant List. This list contains information on the legal and biological status of **87** taxa thought to be rare in the state of Virginia. The lichens, liverworts, and mosses listed herein represent an attempt at designating imperiled species within this often-neglected group. The list is currently small compared to the vascular plant lists because the taxonomy and distributions of non-vascular plants are generally poorly known in Virginia at this time (with some exceptions).

Natural Heritage Resource lists are necessarily dynamic and are revised annually, with updates occurring as data become available. Such revisions assure the most current knowledge of the status of Virginia's plants. Taxa are added to the list when it is determined that they have become rare or threatened to such an extent that their continued existence in Virginia is in jeopardy. Plants are deleted from the list when data indicate they are common and do not warrant priority conservation efforts.

If you have information which could refine this list, please contact DCR-DNH staff botanist John Townsend at (804) 225-4855 (email: [john.townsend@dcr.virginia.gov](mailto:john.townsend@dcr.virginia.gov)) or by mailing the Rare Species Sighting Form found at the end of this document.

All plants which are officially protected by federal or state endangered species acts are included in these lists. The Office of Plant Protection within the Virginia Department of Agriculture and Consumer Services (VDACS) has regulatory responsibility for the listing and protection of Virginia's endangered and threatened plants and insects under the Virginia Endangered Plant and Insect Species Act, as amended (Section 3.1 -1020 through 1030, *Code of Virginia*). The Act provides for the official listing and recovery of endangered and threatened plant and insect species in Virginia. The Act also establishes a permit system for collection of listed species. As of 2013, there were 26 state-listed plant species. A memorandum of agreement between DCR-DNH and VDACS facilitates data transfer between agencies and allows for DCR-DNH to nominate species for listing by VDACS.

Federally listed species are protected by the Endangered Species Act of 1973, as amended. The U.S. Department of the Interior's Fish and Wildlife Service administers the Act, listing and protecting federally endangered and threatened species. As of 2015, there were 16 plant species federally listed as endangered or threatened which occur or formerly occurred in Virginia.

The Virginia Department of Conservation and Recreation, Virginia Department of Agriculture and Consumer Services, and U. S. Fish and Wildlife Service work cooperatively to insure the continued survival of Virginia's diverse flora and other elements of natural diversity. The Division of Natural Heritage also works closely with other state and federal agencies, local governments, conservation organizations, and other organizations and individuals to seek adequate protection of Virginia's natural heritage.

## FORMAT OF LISTS

Lists for each category (vascular plant lists, liverwort list, etc.) are alphabetized by scientific name. Each list has an identical format which presents six fields: scientific name, common name, global rank, state rank, federal status, and state status. To help interpret the list, a brief explanation of each field may be found on the following page.

### Column 1. Scientific name:

Nomenclature for vascular plants almost exclusively follows Weakley, A.S., J.C. Ludwig, and J.F. Townsend, 2012. *Flora of Virginia*. Bland Crowder, ed. Foundation of the Flora of Virginia Project, Inc., Richmond. Fort Worth: Botanical Research Institute of Texas Press. A line is provided below the scientific name to provide synonyms when other names are used in popular botanical references.

Nomenclature for lichens follows Esslinger, T.L. 2014. A cumulative checklist for the lichen-forming, lichenicolous and allied fungi of the continental United States and Canada. North Dakota State University: <http://www.ndsu.edu/pubweb/~esslinge/chcklst/chcklst7.htm> (First Posted 1 December 1997, Most Recent Version (#19) 23 March 2014), Fargo, North Dakota.

Nomenclature for liverworts follows the Field Museum taxonomy module, located at:  
[http://emuweb.fieldmuseum.org/botany/taxonomic.php?\\_ga=1.125124173.613149090.1423754725](http://emuweb.fieldmuseum.org/botany/taxonomic.php?_ga=1.125124173.613149090.1423754725)

Nomenclature for mosses follows volumes 27 and 28 of Flora of North America, North of Mexico (Bryophytes, Part 1 and Part 2).

**Column 2. Common name:**

A common name is provided for the convenience of the user. Common names for plants follow the *Flora of Virginia*.

**Column 3. Global rank:**

Global ranks are assigned by a consensus of the network of natural heritage programs, scientific experts, and The Nature Conservancy to designate a rarity rank based on the range-wide status of a species or variety. This system was developed by The Nature Conservancy and is widely used by other agencies and organizations as the best available scientific and objective assessment of a taxon's rarity and level of threat to its existence. The ranks are assigned after considering a suite of factors, including number of occurrences, number of individuals, and severity of threats.

**G1 = Critically Imperiled** - At very high risk of extinction due to extreme rarity (often 5 or fewer populations), very steep declines, or other factors.

**G2 = Imperiled** - At high risk of extinction due to very restricted range, very few populations (often 20 or fewer), steep declines, or other factors.

**G3 = Vulnerable** - At moderate risk of extinction due to a restricted range, relatively few populations (often 80 or fewer), recent and widespread declines, or other factors.

**G4 = Apparently Secure** - Uncommon but not rare; some cause for long-term concern due to declines or other factors.

**G5 = Secure** - Common, widespread and abundant.

**GH = Possibly Extinct** - Missing; known from only historical occurrences but still some hope of rediscovery.

**GX = Presumed Extinct** - Not located despite intensive searches and virtually no likelihood of rediscovery.

**GU = Unrankable** - Currently unrankable due to lack of information or due to substantially conflicting information about status or trends. Whenever possible, the most likely rank is assigned and the question mark qualifier is added (e.g., G2?) to express uncertainty, or a range rank (e.g., G2G3) is used to delineate the range of uncertainty.

**G\_? = Inexact Numeric Rank** - Denotes inexact numeric rank (e.g., G3?).

**G\_Q = Questionable taxonomy** - Taxonomic distinctiveness of this entity at the current level is questionable; resolution of this uncertainty may result in change from a species to a subspecies or hybrid, or the inclusion of this taxon in another taxon, with the resulting taxon having a lower conservation priority (e.g., G3Q).

**G\_T\_ = Infraspecific Taxa** - Signifies the rank of a subspecies or variety. For example, the rank G5T1 would be assigned to a very rare and localized variety of an otherwise widespread and common taxon.

**GNR = Unranked** - Global rank not yet assessed.

**GNA = Not applicable** - A conservation status rank is not applicable because the species is not a suitable target for conservation activities.

**Column 4. State rank:**

State ranks are assigned in a manner similar to that described for global ranks, but consider only those factors within the political boundaries of Virginia. For example, whereas a plant which is endemic to Virginia (found nowhere else) will have the same global and state ranks, a plant which may be common in the northeastern United States, but only known from a few occurrences in Virginia will have different global and state ranks. By comparing the global and state ranks, the status, rarity, and the urgency of conservation needs can be ascertained.

**S1 = Critically Imperiled** - At very high risk of extirpation from the state due to extreme rarity (often 5 or fewer populations), very steep declines, or other factors.

**S2 = Imperiled** - At high risk of extirpation from the state due to very restricted range, very few populations (often 20 or fewer), steep declines, or other factors.

**S3 = Vulnerable** - At moderate risk of extirpation from the state due to a restricted range, relatively few populations (often 80 or fewer), recent and widespread declines, or other factors.

**S4 = Apparently Secure** - Uncommon but not rare; some cause for long-term concern due to declines or other factors.

**S5 = Secure** - Common, widespread and abundant.

**SH = Possibly Extirpated** - Known only from historical occurrences but still some hope of rediscovery.

**SX = Presumed Extirpated** - Not located despite intensive searches and virtually no likelihood of rediscovery.

**SU = Unrankable** - Currently unrankable due to lack of information or due to substantially conflicting information about status or trends.

**S\_? = Inexact Numeric Rank** - Denotes inexact numeric rank (e.g., S3?).

**SNR = Unranked** - State conservation status not yet assessed.

**SNA = Not Applicable** - A conservation status rank is not applicable because the species is not a suitable target for conservation activities.

**Column 5. Federal Status:**

Federal Status is determined by the U. S. Fish and Wildlife Service. This includes all species and varieties which are listed as endangered or threatened by the U. S. government and receive protection under the federal Endangered Species Act. The list also notes those taxa which are proposed for listing or are candidates for listing.

**LE = Listed Endangered** - A taxon is threatened with extinction throughout all or a significant portion of its range.

**LT = Listed Threatened** - A taxon is likely to become endangered in the foreseeable future.

**PE = Proposed Endangered** - A taxon is proposed for listing as endangered.

**PT = Proposed Threatened** - A taxon is proposed for listing as threatened.

**C = Candidate** - There is enough available information to propose the taxon for listing, but listing is "precluded by other pending proposals of higher priority". The U.S. Fish and Wildlife Service is "directed to make prompt use of the emergency listing if the well-being of any such species is at significant risk."

**\_\*** = An \* following the status denotes that the species or variety is possibly extinct.

**Column 6. State Status:**

State status indicates those plants which are listed as state endangered or threatened under the authority of the Virginia Department of Agriculture and Consumer Services.

**LE = Listed Endangered**

**LT = Listed Threatened**

**PE = Proposed Endangered**

**PT = Proposed Threatened**

**C = Candidate for listing as threatened or endangered**

## **ACKNOWLEDGEMENTS**

If not for the hard work of many biologists, these plant lists could not accurately reflect our current understanding of the Virginia flora. On the staff of the Division of Natural Heritage, Allen Belden, Gary Fleming, Chris Ludwig, Nancy Van Alstine, Karen Patterson, Kristin Taverna, Irvine Wilson, and Darren Loomis have provided many comments to refine the content of the lists. In addition to Heritage staff, members of the Virginia Botanical Associates have contributed greatly to our understanding of the Virginia flora via the continuously updated Digital Atlas of the Virginia Flora and through numerous personal communications.

Other individuals who have contributed include Rodney Bartgis, Stan Bentley, Jessica Bier, Jay Bolin, George Buchholz, Byron Carmean, Chris Clampitt, Jane Collins, Virginia Crouch, Steve Croy, Allison Cusick, Doug DeBerry, Tom Dierauf, Mike Donahue, Cris Fleming, Cecil Frost, Chris Frye, Charles Garratt, Mary Geil, Holly Grubbs, P.J. Harmon, Jessie Harris, Elaine Haug, John Hayden, Mike Hayslett, Frank Hirst, Hal Horwitz, Charles Horn, Fred Huber, Miles Johnson, Larry Klotz, John Knox, Ron Lance, Mike Lane, Chris Lea, Richard LeBlond, Mike Lipford, Greg Lipscomb, Marion Blois Lobstein, Steve Martin, Bill McAvoy, Bob McCartney, Robert McComb, Kent Minichiello, Marcia Minichiello, Bill Moorhead, Larry Morse, Lytton Musselman, Alan Neumann, Jesse Overcash, Jim Perry, Jeremy Poirier, Tom Rawinski, Garrie Rouse, Ernie Schuyler, Cindy Schulz, Perry Scott, Phil Sheridan, Rod Simmons, Rob Simpson, Bruce Sorrie, Nicky Staunton, Mark Strong, John Tate, Barry Truitt, Craig Turner, Leonard J. Uttal, Brian van Eerden, Dick Weigand, Troy Weldy, Tom Wieboldt, Meegan Wallace, Chuck Williams, and Joan Wright.

## *PART FOUR:*

*RARE LICHEN AND BRYOPHYTE LISTS*

Scientific Name	Common Name	Global Rank	State Rank	Federal Status	State Status
<b>LICHENS</b>					
<i>Allectoria fallacina</i> Motyka	Witch's-hair lichen	G2	SH		
<i>Arctoparmelia centrifuga</i> (L.) Hale	Concentric ring lichen	G3G5	S1		
Arctic/Boreal species disjunct in higher Appalachians of VA and WVA					
<i>Buellia stellulata</i> (Taylor) Mudd	Button lichen	GNR	S1		
Disjunct from western U.S.					
<i>Calvitmela talayana</i> (Haugen & Timdal) Andreev	A lichen	GNR	S1		
<i>Cetradonia linearis</i> (Evans) J.-C. Wei & Ahti	Rock-gnome lichen	G2	S1	LE	
syn: <i>Gymnoderma lineare</i> (A. Evans) Yoshim. & Sharp					
<i>Cetrelia monachorum</i> (Zahlbr.) Culb. & C. Culb.	Sea-storm lichen	G2G4	SH		
<i>Cladonia coccifera</i> (L.) Willd.	A Cladonia	G5	S1?		
Arctic/Boreal species disjunct in higher Appalachians of VA, NC, GA					
<i>Heterodermia appalachensis</i> (Kurok.) Culb.	Appalachian fringe lichen	G2?	SH		
syn: <i>Anaptychia appalachensis</i> Korok.					
<i>Heterodermia erecta</i> Lendemer	A fringe lichen	G1?	S1		
<i>Hypogymnia krogiae</i> Ohlsson	Freckled tube lichen	G3G4	S1		
<i>Hypotrachyna lividescens</i> (Kurok.) Hale	A loop lichen	GNR	S1		
<i>Hypotrachyna oostingii</i> (J.P. Dey) Hale	Oosting's loop lichen	G2?	SH		
<i>Hypotrachyna prolongata</i> (Kurok.) Hale	A loop lichen	G3G4	SH		
<i>Hypotrachyna virginica</i> (Hale) Hale	A loop lichen	G1G2	SH		
syn: <i>Parmelia virginica</i> Hale					
<i>Melanelia culbersonii</i> (Hale) Thell	Appalachian camouflage lichen	G2G4	S2		
<i>Parmelia omphalodes</i> (L.) Ach.	Smoky crottle	G2G4	SH		
Arctic/Boreal species disjunct in higher Appalachians of VA, WVA, NC, TN					
<i>Parmotrema louisianae</i> (Hale) Hale	A ruffle lichen	G3G5	S1		
<i>Peltigera hydrothyria</i> Miadikowska & Lutzoni	Waterfan	G4	S1		
syn: <i>Hydrothyria venosa</i> J.L. Russell					
<i>Porpidia lowiana</i> Gowan	A boulder lichen	G2G3	S1		
Arctic/Boreal species disjunct from northern NY					
<i>Porpidia tuberculosa</i> (Sm.) Hertel & Knopf	A boulder lichen	G2G4	S1		
Arctic/Boreal species disjunct in higher Appalachians of VA, NC					
<i>Psilolechia clavulifera</i> (Nyl.) Coppins	A lichen	GNR	S1		
<i>Punctelia graminicola</i> (B. de Lesd.) Egan	Speckled shield lichen	G?	S1		

Scientific Name	Common Name	Global Rank	State Rank	Federal Status	State Status
<b><u>LICHENS, continued</u></b>					
<i>Stereocaulon glaucescens</i> Tuck.	Bony foam lichen	G3	S2?		
<i>Teloschistes flavicans</i> (Sw.) Norman	Powdered orange bush lichen	G4G5	SH		
<i>Usnea angulata</i> Ach.	A beard lichen	G3G5	S1		
<b><u>LIVERWORTS</u></b>					
<i>Aneura sharpii</i> Inoue & N.G. Mill.	A liverwort	G1G2	S1		
<i>Bazzania nudicaulis</i> A. Evans	A liverwort	G2G3	S1		
<i>Cephaloziella spinicaulis</i> Douin	A liverwort	G3G4	S1		
<i>Diplophyllum andrewsii</i> A. Evans	A liverwort	G3	SH		
<i>Drepanolejeunea appalachiana</i> R. M. Schuster	Appalachian threadwort	G2?	SH		
<i>Frullania caulisequa</i> (Nees) Nees	A liverwort	GNR	SH		
<i>Lejeunea ruthii</i> (Evans) Schust.	A liverwort	G3G4	S1		
<i>Leptoscyphus cuneifolius</i> (Hook.) Mitt.	Wedge Flapwort	G4G5	SH		
<i>Marsupella paroica</i> R. M. Schust.	A liverwort	G3	SH		
<i>Metzgeria temperata</i> Kuwahara	Whiskered Veilwort	G4	SH		
<i>Pellia endiviifolia</i> (Dicks.) Dumort.	Endive Pellia	G5	SH		
<i>Plagiochasma rupestre</i> (Forst.) Steph.	A flapwort	G5	S1		
<i>Plagiochila exigua</i> (Taylor) Taylor	A liverwort	GNR	SH		
<i>Plagiochila sullivantii</i> Gottsche ex A. Evans	Sullivant's leafy liverwort	G2	SH		
<i>Schistochilopsis incisa</i> (Schrad.) Konstant.	Jagged notchwort	G5	S1		
<i>Solenostoma pyrifolium</i> Steph.	A liverwort	GNR	SH		
<i>Sphenolobopsis pearsonii</i> (Spruce) R.M. Schust	Horsehair threadwort	G2?	S1		
<i>Tritomaria exsectiformis</i> (Breidl.) Schiffn. ex Loeske	Large cut notchwort	G5	SH		
<b><u>MOSSES</u></b>					
<i>Bryoerythrophyllum ferruginascens</i> (Stirt.) Giacom.	Bryoerythrophyllum moss	G3G4	SH		
<i>Calliergon cordifolium</i> (Hedw.) Kindb.	Calliergon moss	G5	S1		
<i>Campylopus caroliniae</i> Grout	A moss	G2	S1		
<i>Campylopus surinamensis</i> Müll. Hal.	A moss	G4G5	S1		
<i>Cirriphyllum piliferum</i> (Hedw.) Grout	Cirriphyllum moss	G5	S1		
<i>Codiophorus aduncoides</i> (Bednarek-Ochyra)	A moss	GNR	SH		
Bednarek-Ochyra & Ochyra					
<i>Conardia compacta</i> (Hook.) H. Rob.	A moss	G3G5	SH		
<i>Coscinodon cribrosus</i> (Hedw.) Spruce	Copper Coscinodon	G3G4	S1		
<i>Cryphaea nervosa</i> (Hook. & Wilson) Müll. Hal.	A moss	G4?	S1		
<i>Dicranum muehlenbeckii</i> Bruch & Schimp.	A moss	G3G5	SH		
<i>Entodon sullivantii</i> (Müll. Hal.) Lindb.	Sullivant's Entodon moss	G3G4	S2		

Scientific Name	Common Name	Global Rank	State Rank	Federal Status	State Status
<b>MOSSES, continued</b>					
<i>Forsstroemia producta</i> (Hornschr.) Paris	A moss	G5?	S1		
<i>Grimmia alpestris</i> (F. Weber & D. Mohr) Schleicher	A moss	G3G5	S1		
<i>Herpetineuron toccae</i> (Sull. & Lesq.) Cardot	A moss	G4G5	S1		
<i>Heterocladium macounii</i> Best	A moss	G4	S1		
<i>Homalia trichomanoides</i> (Hedw.) Schimp. var. <i>trichomanoides</i>	Lime Homalia moss	G5	SH		
<i>Homaliadelphus sharpii</i> (R.S. Williams) Sharp	Sharp's <i>Homaliadelphus</i> moss	G3?	S1		
<i>Hylocomiastrum umbratum</i> (Hedw.) M. Fleisch. ex Broth.	A moss	G5	SH		
<i>Imbribryum gemmaparum</i> (De. Not.) J.R. Spence & H.P. Ramsay	Bud-tipped Bryum	G3G5	S1		
<i>Leptodontium viticulosoides</i> var. <i>sulphureum</i> (Müll. Hal.) R.H. Zander	Granfather Mountain <i>Leptodontium</i>	G2	SH		
<i>Oncophorus raeui</i> (Austin) Grout	A moss	G3	SH		
<i>Orthotrichum elegans</i> Schwägr. ex Hook. & Grev.	A moss	G5	S1		
<i>Orthotrichum keeverae</i> Crum & Anders.	Keever's bristle-moss	G2	S1		
<i>Platydictya minutissima</i>	Small willow moss	G3	SH		
<i>Polytrichastrum alpinum</i> (Hedw.) G. L. Sm. var. <i>alpinum</i>	Alpine haircap moss	G5	SH		
<i>Polytrichastrum formosum</i> (Hedw.) G. L. Sm. var. <i>densifolium</i> (Mitten) Z. Iwatsuki & A. Noguchi	A haircap moss	G5TNR	SH		
<i>Pseudobryum cinclidiodes</i> (Huebener) T.J. Kop.	River thyme moss	G5	SH		
<i>Schistidium dupretii</i> (Thér.) W. A. Weber	A moss	GNR	SH		
<i>Schlottheimia rugifolia</i> (Hook.) Schwägr.	A moss	G3G5	SH		
<i>Sphagnum angustifolium</i> (C. Jens. ex Russ.) C. Jens.	Narrowleaf peatmoss	G5	S1S2		
<i>Sphagnum contortum</i> Schultz	A peatmoss	G5	S1		
<i>Sphagnum cyclophyllum</i> Sull. & Lesq. ex Sull.	Circular-leaved peatmoss	G3	SH		
<i>Sphagnum fimbriatum</i> Wils. ex Wils. & J.D. Hook.	A peatmoss	G5	SH		
<i>Sphagnum flexuosum</i> Dozy & Molk.	Flexuose peatmoss	G5	S1S2		
<i>Sphagnum fuscum</i> (Schimp.) Klinggr.	Brown peatmoss	G5	SH		
<i>Sphagnum girgensohnii</i> Russ.	Girgensohn's peatmoss	G5	S1S2		
<i>Sphagnum inundatum</i> Russ.	Inundated peatmoss	G4	S1S2		
<i>Sphagnum macrophyllum</i> Bernh. ex Brid. var. <i>macrophyllum</i>	Large-leaf peatmoss	G3T3?	S2		
<i>Sphagnum molle</i> Sull.	Soft peatmoss	G4	SH		
<i>Sphagnum papillosum</i> Lindb.	Papillose peatmoss	G5	S1		

*Rare Lichen and Bryophyte Lists*

Scientific Name	Common Name	Global Rank	State Rank	Federal Status	State Status
<b>MOSSES, continued</b>					
<i>Sphagnum portoricense</i> Hampe	Puerto Rico peatmoss	G5		S1S2	
<i>Sphagnum pulchrum</i> (Lindb.) Warnst.	Beautiful peatmoss	G5		SH	
<i>Sphagnum quinquefarium</i> (Lindb. ex Braithw.) Warnst.	Five-rowed peatmoss	G5		S2S3	
<i>Sphagnum rubellum</i> Wils.	Red peatmoss	G5		S2	
<i>Sphagnum strictum</i> Sull.	Straight peatmoss	G5		S2	
<i>Sphagnum torreyanum</i> Sull.	Torrey's peatmoss	G3G4		S2	
<i>Syntrichia amphidiacea</i> (Müll. Hal.) R.H. Zandler	A moss	GNR		SH	
<i>Syrrhopodon incompletus</i> Schwägr.	A moss	G5		SH	
<i>Tuerckheimia svihlae</i> (E.B. Bartram) R.H. Zander	A moss	GNR		S1	
<i>Ulota hutchinsiae</i> (Sm.) Hammar var. <i>rufescens</i> (E. Britton) Dixon	A moss	G5T3		SH	

## APPENDIX 1: CHANGES TO THE 2015 LISTS

Below is a summary of the changes to the plant lists since the 2015 edition:

### Additions to the rare vascular plant list

<u>Scientific Name</u>	<u>Old Rank</u>	<u>New Rank</u>
<i>Eleocharis bifida</i> S.G. Smith	N/A	G3G4/S1
<i>Scutellaria parvula</i> Michx.	N/A	G4/S1
<i>Sedum pulchellum</i> Michx.	N/A	G5/S1

### Rank changes on the rare lichen and bryophyte list

<u>Scientific Name</u>	<u>Old Rank</u>	<u>New Rank</u>
<i>Campylopus surinamensis</i> Müll. Hal.	SH	S1
<i>Forsstroemia producta</i> (Hornschr.) Paris	SH	S1
<i>Lejeunea ruthii</i> (Evans) Schust.	SH	S1
<i>Melanelia culbersonii</i> (Hale) Thell	S3	S2
<i>Schistochilopsis incisa</i> (Schrad.) Konstant.	SH	S1

### Species removed from the rare lichen and bryophyte list

<u>Scientific Name</u>	<u>Old Rank</u>	<u>New Rank</u>
<i>Melanelia stygia</i> (L.) Essl.	S3	S3?

## **APPENDIX 2. RARE SPECIES SIGHTING FORM**

An important component of the natural heritage inventory and protection process involves gathering information from state experts, professionals, and avocational naturalists throughout the state. To facilitate this, the Division of Natural Heritage has developed a rare species sighting form. If you would like to participate in our inventory and protection activities, please take a few moments to complete the attached form for any taxon from our lists. This data will be incorporated into the natural heritage data base and used exclusively for the protection of the rare taxon and its habitat. Please send the form or pertinent electronic files (including GIS data) to staff botanist John Townsend at: Department of Conservation and Recreation, Division of Natural Heritage, 600 East Main Street, 24th Floor, Richmond, VA 23219.

Thank you for your support. The Division of Natural Heritage can only realize the protection of the Commonwealth's natural diversity by working through a network of knowledgeable and concerned individuals.

**TAXON NAME:**

**DATE SEEN:**

**CITY/COUNTY:**

**COLLECTION INFORMATION:** (Include your personal collection number, if any, and the Herbarium where the specimen has been/will be deposited)

**LOCATION:** (Please provide as detailed a description as possible. ( Please include a topographic map or GIS file showing the location.)

**HABITAT DESCRIPTION:** (Include associated species, natural features, vegetation, and other applicable habitat information).

**POPULATION DATA:** (Include number of individuals, age, size, spatial distribution, evidence of reproduction and other applicable population data.)

**THREATS OR EVIDENCE OF DISTURBANCE TO SITE:**

**LAND OWNER(S):**

**REPORTED BY:** (Please include name, address, telephone number, and email address.)

**DATE OF THIS REPORT:**
